

Thea Queen of Light

Short version (410 words)

Thea Queen of Light is a woman with many facets and that is what makes her personality and music so special. After she had to escape from war in her hometown Bihac (Bosnia Herzegovina), she found strength in her destiny: Music – this universal language, which brings people closer to each other and lets boundaries disappear. Even in her bad experiences she always saw something positive and developed an energy that made her strong. Now she is living and working under the name **Thea Queen of Light** as a Hip Hop artist in Stuttgart – a city which is a mecca for the whole scene of the genre. For example, **Thea Queen of Light** was performing on stage at the celebration event for **10 years of Catch A Fire Festival**. She could share the stage with popular artists like Gentleman, Eizi Eiz aka Jan Delay, Denyo and DJ Mad, Samy Deluxe & Tsunami Band, Afrob, Cassandra Steen, D-Flame, Torch, Toni L, Reedoo and Johnny (Culcha Candela), Curse and many more. So she could excite the 4000 to 5000 visitors in even two cities: Sindelfingen and Freiburg.

At the same time, **Thea** is a wanderer between the worlds, who is able to find a place for herself all over the world, which she might not always call her homeland, but a home. **Thea Queen of Light** wants to recreate the sometimes lost connection between the people by using the element which is part of every culture: Music!

But the woman with the colourful past has not only the rhythm in her blood, but also her heart in the right place. With her organisation **Light for tomorrow. e.V.**, together with other helpers, she contributes her part to the responsibility of society and cares about the often forgotten in this world. All of her passionate commitment is dedicated to the children around the globe who suffer from orphanhood or horrible diseases like Aids or cancer and to the poorest of the poor. **Thea Queen of Light** carries the hope and positive energy not only in her name, but also transports this philosophy in her songs.

The multi-talent who is also interested in fashion and acting, is writing her own songs and creates powerful rhymes, which are directly going into your ear. With her never-ending courage and the will to make the world a little bit better and more beautiful, in music she found the perfect instrument to show everyone her own inner light.

„For me, music is the best way to communicate“

Long version (673 words)

Thea Queen of Light is an exceptional artist, whose talents and interests are various and every element of her personality makes a stone in the colourful mosaic of her life. Already in her early years Thea, who was born in Bosnia Herzegovina, knew that music would become her destiny and passion one day. She received her first prize at the early age of seven and when she was 11 years old, she already received the second one for a self-composed and performed song. Thea, who is playing the piano for over 20 years now, has a past like everybody and like it is with every passionate musician, her biography influences her art. After she had to escape from war in her hometown Bicac (Bosnien Herzegowina), she found strength in her destiny: Music – this universal language, which brings people closer to each other and lets boundaries disappear. Now she is living and working under the name **Thea Queen of Light** as a Hip Hop artist in Stuttgart – a city which is a mecca for the whole scene of the genre and offers its very own microcosm of like-minded and artists. For example, **Thea Queen of Light** was performing on stage at the celebration event for **10 years of Catch a Fire Festival**. She could share the stage with popular artists like Gentleman, Eizi Eiz aka Jan Delay, Denyo and DJ Mad, Samy Deluxe & Tsunami Band, Afrob, Cassandra Steen, D-Flame, Torch, Toni L, Reedoo and Johnny (Culcha Candela), Curse and many more. So she could excite the 4000 to 5000 visitors in even two cities: Sindelfingen and Freiburg.

At the same time, **Thea** is a wanderer between the worlds, who is able to find a place for herself all over the world, which she might not always call her homeland, but a home. She is fascinated by the different cultures, is living between them and with her art she wants to recreate the sometimes lost connection between the people by using the element which is part of every culture: Music! **Thea Queen of Light** carries the hope and positive energy not only in her name, but also transports this philosophy in her songs. The multi-talent who is also interested in fashion and acting, is writing her own songs and creates powerful rhymes, which are directly going into your ear. With her never-ending courage and the will to make the world a little bit better and more beautiful, in music she found the perfect instrument to show everyone her inner own inner light.

But the woman with the colourful past has not only the rhythm in her blood, but also her heart in the right place. And she has a second passion next to music: Humanitarian aid with which she carries her part of the social responsibility for the people in this world who need help. All of her passionate commitment is dedicated to her organisation **Light for tomorrow. e.V.** which helps the poorest of the poor and the children around the globe who suffer from orphanhood or horrible diseases like Aids or cancer. The charity commitment is a personal matter for Thea which is very important to her, especially because of her own formative experiences.

With her album **Book of truth**, whose proceeds from the online-sales are 100% going to charity projects, she tells her own, personal stories. This album which is the first album-release in Germany for **Thea Queen of Light**, is a very personal work, with which she wants to draw attention on how much grief there is in the world.

But at the same time, **Book of truth** is a homage to the sense of family and the positive things in life, which for many people are too often invisible. **Book of truth** was 50% self-produced and additionally, Thea has loved to work with other people, because she appreciates sharing creative processes and inspiring each other. Thea wants to bring joy and hope with her music, so that some day everyone has the inner light she carries in herself.

„If I stop learning, I have stopped living“
